**Title:** FaceIt

Who: Abiel Fattore, Phillip Kickbush, Cameron Connor, Channing Hurley, Brandon Zink
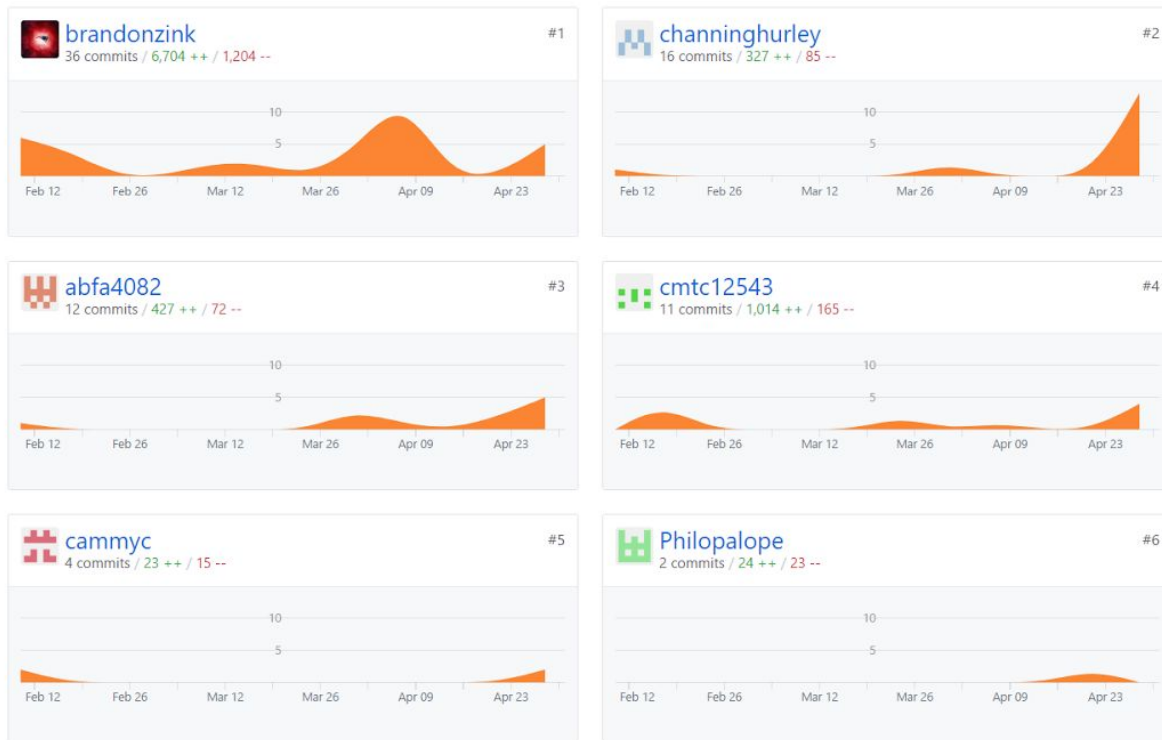

Project Tracker: https://trello.com/b/6OhVgUQH/project-plan

Video: https://www.youtube.com/watch?v=ipj6acDxZzo

Repository: https://github.com/brandonzink/Software-Dev-Project

Screenshots of each member's contribution:

Brandon Zink: brandonzink, Channing Hurley: channinghurley,

Cam Connor: cmtc12543/cammyc, Abiel Fattore: abfa4082, Phillip Kickbush: Philopalope

Note: Brandon Zink had ~2,000 lines ++, but upon uploading the Doxygen web pages output, that counted as an additional ~4,500 ++.

Deployment: http://www.fondobike.com/Software-Dev-Project/Pages/index.php

Auto Doc:

Doxygen (HTML output)

https://github.com/brandonzink/Software-Dev-Project/tree/master/Doxygen/html

Note: we attempted to figure out as much as we could as to what was expected in the auto doc, but are unsure if this is exactly what is required because the instructions leave a very vague explanation as to what is required.
